

# Olympic and Paralympic Games

## Preparing for the Tokyo 2020 Games

At the time of the Tokyo 1964 Games, construction of the Tokaido Shinkansen bullet train, Metropolitan Expressway and other infrastructure made major strides, supporting Japan's economic growth.

The Tokyo 2020 Olympic and Paralympic Games will present an opportunity for Tokyo to show the world a role model for a mature society. The legacy left by the Games will not just be the ongoing use of the newly built facilities but also the bonds forged among the people of Tokyo and Japan through their involvement in the Games.

### Olympic Village

Following the Games, the Olympic Village will be transformed into a highly desirable place to live where all kinds of people interact and enjoy pleasant and fulfilling urban life.

### New permanent facilities

The facilities will continue to be used effectively beyond the Games as sites for competitive sports, playing and watching sports, training young athletes, and other purposes.

### Legacy from the Tokyo 1964 Games

Infrastructure construction was advanced at the time of the Tokyo 1964 Games in order to turn Tokyo into a modern city. Some of the facilities built then, including the Yoyogi National Stadium and Nippon Budokan, will be used as venues for Tokyo 2020.

- A Tokaido Shinkansen (in service from October 1964)
- B Tokyo Metropolitan Expressway (sections of Routes Nos. 1 and 4 were opened between 1962 and 1964)
- C Aoyama-dori Avenue
- D Yoyogi National Stadium
- E Nippon Budokan
- F Komazawa Olympic Park

31 Sapporo Dome

32 Miyagi Stadium

24 Saitama Super Arena

27 Makuuhari Messe

28 Enoshima Yacht Harbour

29 Izu Velodrome
