

THE CHANGING FACE OF TOKYO

Tokyo, Japan's capital and a driver of the global economy, is home to 13 million people. The city is constantly changing as it moves steadily toward the future. The pace of urban development is also accelerating as Tokyo prepares for the Olympic and Paralympic Games in 2020 and beyond.

1 Musashino Forest Sport Centre
A general sports complex, which will be used as a Tokyo 2020 Olympic and Paralympic competition venue
*The perspective drawing from the detailed design stage.
Tokyo Outer Ring Road
Construction of the approx. 16 km segment between the Kanetsu and Tomei expressways is underway.

2 Linear Chuo Shinkansen
A new bullet train adopting superconducting maglev technology is under development. The section from Shinagawa to Nagoya is scheduled to start operation in 2027.

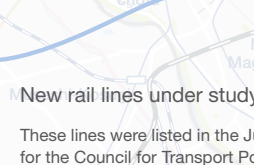

3 New National Stadium
To be built as the main venue of the Tokyo 2020 Games.

4 Shibuya Station Area Development
A large-scale redevelopment project around the station where JR, private train lines, and subway lines converge.

5 Shinagawa New Station
A new station between Shinagawa and Tamachi stations on the Yamanote Line will be constructed for provisional operation in 2020.

6 Toranomon 1-chome
A bus terminal is planned as part of Toranomon redevelopment. A new station of the Hibiya Subway Line is also scheduled for construction nearby.

7 Tokiwabashi Redevelopment
Tokyo Station Nihonbashi exit redevelopment. Construction of a 390-meter skyscraper is planned.

8 Yaesu Redevelopment
Construction of a large bus terminal in front of Tokyo Station and enhanced business exchange functions are planned.

9 BRT
A Bus Rapid Transit system linking the Waterfront City* and the city center will be introduced. (Photo: Example in the Makuhari district of Chiba Prefecture)

10 Olympic Village*
After the Games, this area will be transformed into a pleasant residential space for various people.

11 New Toyosu Market
Relocation of the Tokyo Central Wholesale Market from Tsukiji. The new market is scheduled to open in November 2016.

New rail lines under study
These lines were listed in the July 2015 "Summary of Studies for the Council for Transport Policy Report on a Regional Transportation Network Plan" as lines that should be given priority in studies for construction. Development has not been decided.

Global Financial Center Concept
Tokyo will become a global financial center that drives the economies of Tokyo, Japan, and Asia.
